

The Prysmian Group

- The Prysmian group is a world leader in the energy and telecommunication cables industry, with a strong market position in higher-added value market segments.
- Organised into two business units, Energy Cables & Systems (submarine and terrestrial cables for electricity transmission and distribution) and Telecom Cables & Systems (optical fibres and cables for video, data and voice transmission, and copper telecom cables), the Prysmian Group has a global presence with subsidiaries in 38 countries, 53 plants in 21 countries, 7 Research & Development Centres in Europe, the United States and South America, and more than 12,000 employees.
- Prysmian is listed on the Milan Stock Exchange Blue Chip index.

Our History

1879

Società Cavi Pirelli is established in Italy as the cable division of the recently founded Pirelli Group

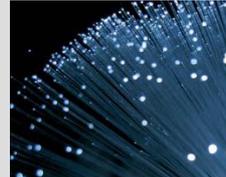

1902

The Company continues to expand its product range and begins its international expansion with the construction of its first overseas plant in Spain

1925

Pirelli wins its first transatlantic business, connecting Italy and the Americas with 5,150m of submarine cable.

1982

The Pirelli Group becomes the first company in Italy to produce optical fiber for telecommunications and data transmission

1998

Pirelli begins targeted acquisitions, including the power cable businesses of Siemens, BICC, Metal Manufacturers Ltd. and NKF

2005

The Prysman Group is founded in July 2005 through the acquisition of the energy and telecom cables and systems activities of Pirelli.

2007

Within two years Prysman becomes a listed company, quoted in the blue chip sector of the Milan Stock Exchange.

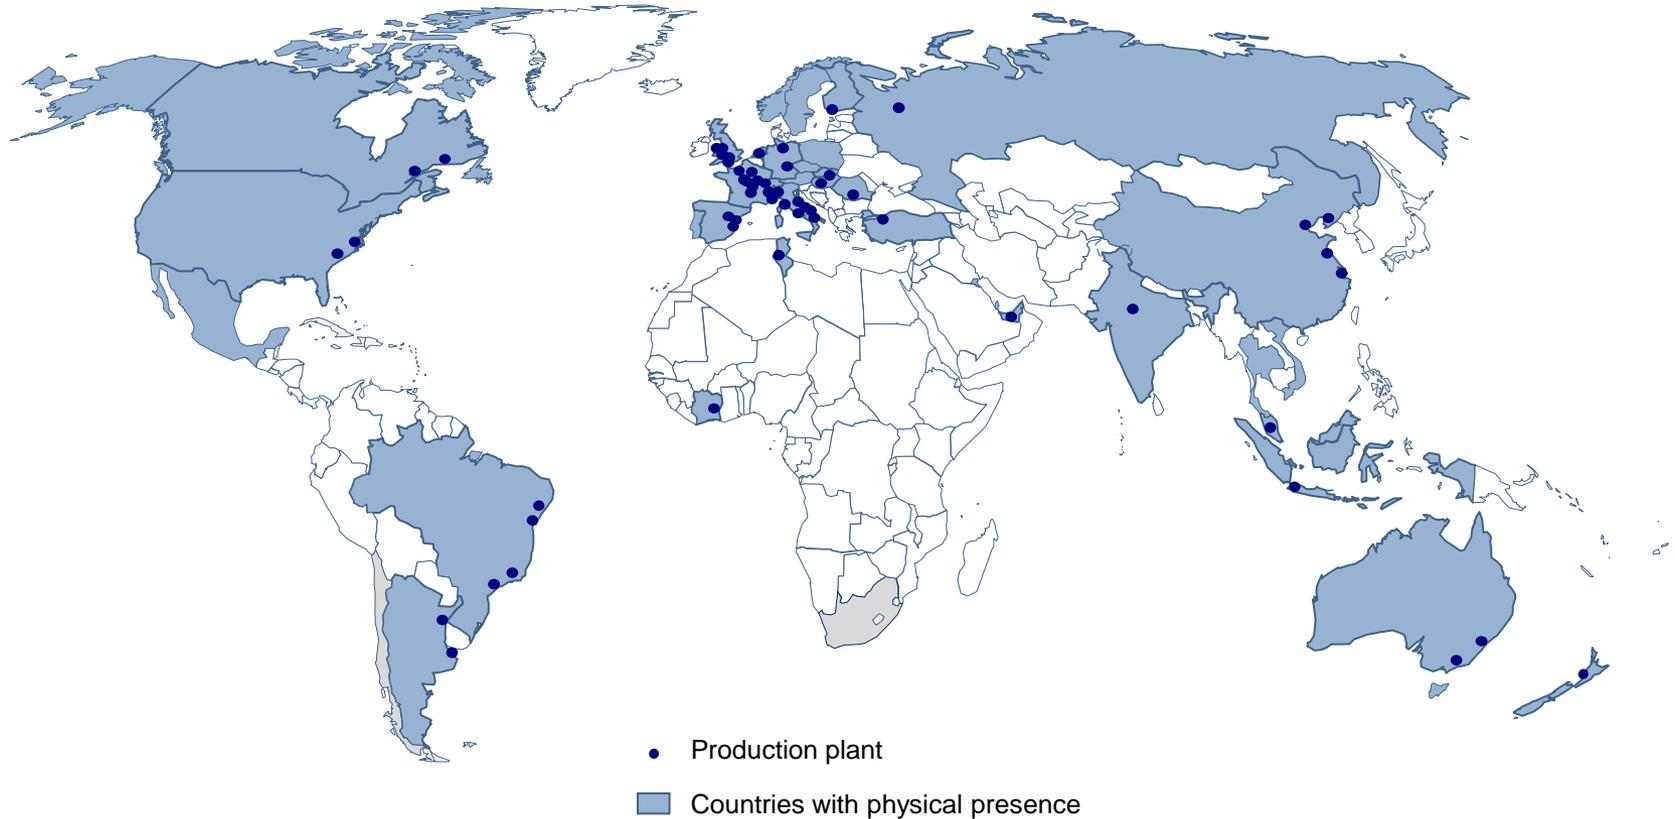

Founded in 2005, Prysman's origin has its roots in the history of the Pirelli Group. Technological know-how, research and innovation and a strong focus on human resources set Pirelli apart and are now continued by the Prysman Group.

2010

Today the Prysman Group is a thriving global company and a leader in its field, with over 12,000 employees and world-wide production and R&D facilities.
