

PROFIL GD3939

Currently I'm pursuing my MSc in RPSCM from Audencia business school

I'm actively looking for internship opportunities and work study opportunities in a freight forwarder company because I love managing fleets whether it's Roadways, Seaways or Airways company.

Les informations personnelles du candidat ont été volontairement masquées afin d'éviter toute discrimination.

COMPÉTENCES

CERTIFICATIONS

- I have online certification from Airbus Beyond in Understanding Global Supply chain
Obtained on N/A
- I have supply chain job simulation certification from GE Aerospace
Obtained on N/A

CENTRES D'INTÉRÊTS

I love reading Biopics but I first watch the series on TV and then read it. Love travelling and a very fond of sports especially Cricket.

FORMATIONS

I'm indicating my studies from 2018 - 2023 Bachelors because this has shaped my ideology regarding international conspiracies. I specialized my Bachelors with political Science and International Relations. I was very keen in knowing what happens cross border and how it creates a major disruption to any nation when something goes wrong with any international foundation. Something out from the box: When I was small sitting on my roadside cart and gazing the freight trains. I was curious to know what this container is for and why are they of different types. From that point I believed myself to be in a circle of freight related future.

Currently I'm pursuing my Master 2025 - 2027 of Science in Responsible Procurement and Supply Chain Management. Since its a start of my MSc i have covered thins like purchasing Management and ill be continuing with warehouse management, Incoterms, insurance and ERP later.

EXPÉRIENCES

I worked in an Agro-based distribution - (CDI) and reselling company. I had responsibilities to resell the products and also managing the distributing fleets in the city.
